You will be instructed to mark your answers according to a designated code provided in the directions.
2. **Arithmetic computation with calculator.** These questions test for the ability to use a calculator to do basic computations. Questions will involve addition, subtraction, multiplication and division. You may also be asked to calculate averages, to use percents, and to round an answer to the nearest whole number. 3. **Working with office records.** These questions test your ability to work with office records. The test consists of two or more sets of questions, each set concerning a different problem. Typical record keeping problems might involve the organization or collation of numerical data from several sources; maintaining a record system using running balances; or completion of a table summarizing data using totals, subtotals, averages and percents. **You should bring with you a hand-held battery- or solar-powered calculator for use on this test.** You will **not** be permitted to use the **calculator** function of your **cell phone**.
